

**CITY OF MARIANNA
COMMISSION AGENDA MEMO
REGULAR MEETING
June 5, 2018**

ADMINISTRATIVE STAFF REPORT

Subject: Florida Department of Environmental Protection (FDEP)
State Revolving Fund (SRF) Authorize Application
Resolution 2018-17
Solar Farm – Waste Water Treatment Plant/Spray Field

Subject Background: The City of Marianna has completed planning and design for the construction of a solar farm to power the City’s Waste Water Treatment Plant and Spray Field. This was funded by FDEP SRF funding. The City has been selected to receive funding for construction in the form of a Grant and Loan.

As required by FDEP the City Commission is required to pass a resolution authorizing the application and pledge of water and sewer revenues for repayment of the loan portion.

Recommendation: The Resolution is a requirement of FDEP in order to receive funding. The City Attorney and Staff have reviewed the Resolution and find it acceptable.

Potential Motion: I move to authorize the City of Marianna to execute Resolution 2018-17, allowing the City to move forward with an application for funding under the FDEP / SRF Program.

Prepared by: Jim Dean, City Manager
